WHO WROTE IT?

Piece of Letter Found Reciting a Tale of Political Woe.

A gentleman residing in this city found a piece of a letter a short time ago reciting the sorrows and the disappointments of a republican politician's life. The first page of the letter was missing and the signature was torn off, so that the writer and the man to whom it was addressed are unknown. It was an appeal for help, and recited the fact that the writer had worked hard for the republican party and that his son Joe had worked hard and that neither of them had ever received an office, while Don White, Ed Ragan, and others, who had never done half as much, had been honored with paying offices.

The letter further recited that the writer was in sore straits, and must have help, an appointment of some kind with money in it. That he owned property in Greensboro, but could not rent it because he had worked so hard for the republicans that the democrats didn't like him and were boycotting him.

That is about all the torn parcel of the letter contained, and it is a pity the rest of the eloquent appeal together with the name of the suppliant and the man appealed to was lost. The republicans should take better care of their servants. Why not call on Hanna to provide a home for worn-out and disappointed laborers?

The interesting question is: Who wrote the letter? Who is son Joe? The letter was written on the McAdoo house note heads.

MARRIAGES AT PROXIMITY.

Dr. Pearson Preached Sunday—Many Persons Moving in—Personal.

Proximity Bureau.

On Sunday morning it was the pleasure of the congregation to listen to a sermon by Rev. W. L. Grissom. Mr. Grisom said: "It is our custom to celebrate great events and this morning we come to celebrate one of the greatest in the history of the world, that is the Resurrection, the speaker using both presumptive and positive proofs to establish the doctrine.

We are sorry to note that Miss Bernice Combs has been sick for several days.

The Roads to Wealth.

Florida Times-Union.

It is an old story that a woman in Savannah sold mint and paid for a corner lot. Now comes another of the widow in Virginia who is shipping thousands of violets to the New York market, and is making more profit off her half acre than can be harvested off most of the plantations of the same country. These are good stories, but there are better. For instance, Mr Carnegie began as telegraph operator, and is now worth uncounted millions; but we do not say he has thumped an instrument all his life. The boy who was once a private soldier is now president of the United States; but he dealt with Mark Hanna in the meantime. There are other instances, but that is another story. On the whole, we may conclude that economy, hard work and safe investments may find the road to wealth begin in a mint or violet bed, but we would not advise all Americans to take such an opening, or think that every rail-splitter is a Lincoln because Lincoln used a wedge and maul.

Small Tenant House Burned.

The fire alarm was turned in today exactly at two o'clock from box 52 The department responded promptly but could do no good. The fire was in one of W. D. McAdoo's tenant houses in Warnersville, which was occupied by Chas. Walker, an employee of the Southern Express Co. It caught from a defective flue and was beyond all possible hope of saving before the firemen arrived.

MUST STOP WAR IN A WEEK.

RUSSIA, GERMANY, FRANCE SAID TO DEMAND IT.

The Rumor Says That if the War is Not Stopped in One Week They Will Invade Afghanistan.

By Wire to the Telegram.

Berlin, April 17—A Tageblatt special from St. Petersburg says that Russia, Germany, France, have prepared an ultimatum to England that if she does not conclude hostilities in South Africa within a week Afghanistan will be invaded by a hundred and twenty thousand men. This despatch recalls virtually the same rumor circulated in London from Copenhagen.

THE AMEER SQUEALING.

London, April 17—A letter to the Times from Lahore says an autograph letter from the Ameer of the Afghanistan has been published which asks the British to check the aggression of the Russians. It says he has always been an ally of Great Britian and it is now time for British acts not talk.

MORE TROUBLE FOR ENGLAND.

Amsterdam, April 17—Advices today state that it is rumored in official circles in Moscow that the Czar will protest against the transportation of British troops via Beira and Portugese East Africa and it is said that France, and Germany will follow Russia's example under certain reservations.

JUST OFF TODAY'S WIRES.

Sergeant Robt Douglass, while on duty at the Cornell Dam, at Croton Landing, N. Y. Y., where the strike is in Progress, was shot last night by an unknown party. Till a late hour today there was no trace of the murderer. About seven hundred troops are now on the ground.

An outbreak of the Bubonic pleague on the Turkish frontier has caused 195 deaths.

The Transvaal government is relying strongly on American intervention and hope much from the campaign of Webster Davis.

Meridian, Miss., is now surrounded on three sides by water. There have been seven inches of rainfall since Sunday. Two persons have been drowned, and $200,000 damage done.

In a twenty minutes fight between Americans and Tagalogs fifty of the latter were killed and 3 taken prisioners, and fifteen Americans were killed and wounded.

Mrs. Newman's Statement.

A report has been widely circulated throughout the country that the widow of Bishop John P. Newman of the Methodist Episcopal church has offered to give $30,000 to the First Methodist Episcopal church in Omaha on condition that the remaining $10,000 needed to free the church from debt be raised by the people and that the church be called the Newman Memorial church. In a private letter to a friend Mrs. Newman has authorized a denial of the above report. She said in part:

"I have never made any such offer. Bishop Newman was very much interested in that church and gave at least $1,000 toward it and left in his will $1,000 which was to be paid as the last of the entire indebtedness. I promised to give $100 only to the ladies, which was all I could afford. You know, Bishop Newman was a liberal giver during his life, and I presume this is why he was thought to be a rich man. Why, if I were to give $30,000 for one object I would have no income at all out of my husband's estate, and what his Drew students will do to carry on their studies is a problem."

Bury Not Your Talents.

No man who buries his talents can live a happy life. The most unhappy people one meets are those who have abundance, but refuse to use it in the way God intended. They are living for themselves and know it is wrong and are unspeakably miserable on that account, but cannot bring themselves to live otherwise. The most happy people in the world are those who devote their talents, whether great or small, to some good use. This is an infallible recipe for happiness. Let any unhappy man begin at once to do all the good he can, in every way he can, to as many of his fellow men as he can, and his heart will begin at once to sing for joy.—Christian Advocate.

London, Ky.

Representative Vincent Boering is a resident of London, Ky., and comes to the defense of the little town which has achieved fame since the shooting of Goebel. He says: "It is not the resort of assassins. There has not been an open saloon nor a homicide in the town for the last 25 years. It is just as accessible by rail as Frankfort. I wish likewise to make it plain that London, Ky., is not the center of feuds, as has been reported in the newspapers. The town is the seat of a university, has eight churches, a national bank and two newspapers."

An Unusual Feat.

Kaiser Wilhelm presented to the Ziethen hussars as a New Year's gift a copy of the Dutch naval flag taken by the regiment in 1787. It then accomplished the unusual feat for a cavalry regiment of capturing a man-of-war. A ten gun Dutch brig ran ashore in trying to break down the dikes, and the hussars managed to board her.—New York Sun.

Vick's Yellow Pine is warranted best prescription for coughs and lung troubles—25c.

WALNUT WOOD IS DEAR.

A Good Grove of Trees Will Bring a Snug Fortune Any Day.

Indiana timber land, which was considered the best in the country, is being so rapidly denuded of the once splendid forests of hard wood timber that speculators are seeing the advantage of gobbling up everything that may be got in the way of timber tracts.

The walnut and hickory of Indiana and Ohio are considered the best that can be had, and the monster poplars which once formed the nucleus for the log heap fire are now worth individually more as they stand than the acres they occupy will bring when cleared, many a poplar tree selling for $100 before an ax touched it.

The walnut that was once so plentiful that barn timbers, house sills, fence rails, etc., were made from it is becoming exceedingly scarce, and curled walnut stumps have brought almost fabulous prices, while hickory of the shellbark variety can scarcely be found in some of the best sections.

Last year's purchase by a Goshen (Ind.) firm of 55 standing walnut trees near the northern Indiana line for $10,000 and the handsome sum they make out of the handling of this rare clump of trees have proved an incentive in the search for timber in other directions. Grant county furnished a noticeable instance in the sale of the 1,030 acres of virgin forest on the Wood tract, the last large forest in Indiana, for $66,000. A New York firm bought the walnut timber where it stood for $55,000. Four hundred acres of land, the timber being reserved by the seller, sold for $20,000, and there remain 630 acres of the best timber in Indiana, the walnut alone being sold from it. The buyers will clear $50,000 by their deal in that timber.

Where years ago the lumbermen went for only large tracts they are now content with individual trees, and wherever there is a notably fine forest monarch of the desirable variety its whereabouts become widely known, and the competition to secure it is very sharp.—Chicago Record.

Antics of a Palace Car.

A remarkable accident happened on the incoming Internatfonal passenger train the other day when within ten miles of Laredo. The train was coming down a steep grade, running 40 miles an hour, when the Pullman rear coach, because of spreading of the rails, left the track, ran the length of two telegraph poles outside of the crossties, was jerked back across to the other side of the track and ran for some distance at an angle of 15 degrees on a 20 foot embankment. When a culvert 20 feet across was reached, the Pullman returned to the track and crossed on the crossties, cutting nearly every one of them in two pieces. Four telegraph poles beyond the culvert was a switch, upon which the Pullman regained the rails just as the engineer succeeded in bringing his train to a standstill. The Pullman was full of passengers, and not one of them was hurt.—Galveston News.

When Things Go Wrong.

Worry is the twin sister of nervousness. Neither should ever enter into the daily life of any one. God, in his all wise providence, put the head of a human being on top, that all beneath it might be subservient to it. There is something wrong above the eyes, in the region of the will power, when one becomes nervous in the sense of excitability. "Know thyself" is good; control thyself is better. Worry and excitement never aided any one. Any fool can get along when everything is all right, but it takes a wise man, a level headed man, to get along and not worry or become nervous when everything is all wrong.—Ladies' Home Journal.

Tit For Tat.

Sometimes the girls here and there have organized societies for the purpose of mutually declining to receive the attentions of young men who should refuse to sign total abstinence pledges. It is now for the boys to neatly turn the tables by declining to pay attention to any girl wearing the wings or feathers of one of our song birds in her hat. The vice of intemperance is not so very much worse than the hideous vanity which in its thoughtlessness of cruelty sacrifices the choristers of the forest for its gratification.—Philadelphia Record.

William's Yell Satisfied Her.

Probably the heaviest man in the world is Willie Stout, who, though only 21 years of age, weighs 712 pounds. While William was attending an Elks' reunion at Buffalo a large crowd was standing about talking to him when an old lady behind him, who doubted whether his adipose tissue was as substantial as it looked, stuck a big hatpin in his side. She thought he was blown up in some way, but the yell he emitted convinced her that he was the real thing.

Hanna on Cartoons.

Not long ago a public man who had been made the central figure in a cartoon complained to Senator Hanna about the illustration, saying that he was half inclined to sue the paper for $25,000 damages for holding him up to public ridicule.

"I wish you would," said Senator Hanna. "If you can get $25,000 for that picture, it will insure my getting about $25.000.000 for all the cartoons that have been printed about me."

Pawned Church Property.

When the sexton opened the Norwegian Lutheran church for prayer meeting the other night, he found the chairs, pews, organ and even hymnbooks gone. He discovered the missing articles in a local pawnshop, where thieves got $50 on them. They represented themselves as deacons eager to raise funds for the church, which, they said, was in financial distress.—Denver Post.

OFFICES AS A PACIFIER

We have heard of different ways of producing what is known as pacification after a people or country has been subjected to a revolution or a war of nearly any kind, but especially an insurrection. The British generals sent to whip the American colonies into submission reported more than once after they had been especially active in frays or fighting that they were on the eve of accomplishing that result

General Weyler's method of pacification was to kill out the inhabitants and burn the property. There is no doubt that he was following in the footsteps of illustrious predecessors. The principal objection to this method is that it is double-barrelled and produces deserts as well as peace.

But this timehonored method has at last in one case been done away with. We refer to the American pacification of Cuba. Had it attracted your attention that Cuba is pacified? It is; and all done so quietly and easily that no one had noticed it. The result was produced in a curious way. Not so long ago there was much talk in the island about what Cuba should do, and a good many of the former insurgents were shaking their fists and wagging tongues pretty viciously towards your Uncle Samuel. Of course there was much wind in all this—they had learned the use of wind from their Spanish preceptors. But behind all the vain glorious boastings and vaporings, there was dissatisfaction in Cuba, principally, it is true, among the insurgent element, because the United States had stepped in and taken charge of things. But your Uncle Samuel has not been growing his optical incisors all these years for nothing, and after driving out the Spanish parasites, he carefully looked over the ground and sized up the situation. And while he was deciding the grumbling mentioned above took place. But that is all over. Cuba is pacified, perhaps satisfied, certainly quiet.

Uncle Sam was smart enough to see the inside of the whole business. Holding the offices was the secret, and with an astuteness surprising, the United States mastered the situation at once. Before the advent of the gentlemen whom the Spaniards contemptuously called the American pigs, the Havana Custom House was filled from top to bottom with native Sons of Hispania. This was true also of nearly every office in the island. Today, under the benign influence of the American bags nearly every civil and judicial office in Cuba is filled by Cubans. And it is worthy of note that the dissatisfaction there was during the period before it became certain that this would be the case, in other words, while the Cubans feared that the Americans would follow the practice and example of Spain in this particular

Office holding has many and various uses, but this is about the first time it has been used as a pacificator.

Ex-Governor Altgeld made a speech last night at Albany in response to the toast "What would Jefferson do?" That is a small question as compared with what Altgeld would do.

It is a matter of congratulation that Senator John T. Morgan last Saturday overwhelmingly carried the senatorial primaries in Alamance, which assures his return to the Senate for the next six years.

A St. Petersburg dispatch Sunday says that there is a persistent rumor afloat in Moscow to the effect that the Russian government will send an ultimatum to England demanding that the war in Africa cease at once, under penalty of a threat that if her wishes are not complied with, Herat and Cabul will be occupied. This is not quite the style of procedure of the "Bear that walks like a man." It would be more in his line to get what he wants without making any preliminary noise about it.

The president yesterday nominated Mr. Chas. H. Allen, of Massachusetts, to be governor of Porto Rica The statement follows that Governor Allen will be inaugurated with such pomp and ceremony as will cause the event to find lasting lodgment in the minds of our children in Porto Rico. This is well. All people who have ever come in lasting contact with the gorgeous customs of the Spaniards have more or less imbibed their love of display. Our new wards would not be impressed with a simple American ceremony There would not be enough "quality" in it to make them think it the real thing.

NORTHERNER SEES GREENSBORO

AND WRITES OF THE THINGS HE SAW WHILE HERE.

He Also Visits Pomona and the Home of Mr. Lindley—Mentions Our Large Buildings

From a letter written by Mr. L. L. Lain, of Westtown, N. Y. to the Chester (N. Y.) News, giving a description of the country, the towns and their industries, from Virginia to Georgia we copy an extract as follows:

From Raleigh we we took the Southern road and went 81 miles to the city of Greensboro. Perhaps it would be hard to find a larger boom. It has two large cotton mills that are paying 40 per cent. dividends. It has one large carpet factory, an overall factory and 20 tobacco houses Some of them are very large building—five stories high. As to schools, it has four large buildings for the public or graded schools, as they call them. It has four colleges, two of them being for young ladies and two for the colored young people. All of them are imposing buildings As for churches, they have 20, and it is the rule, not the exception, for the people to go to church. Greensboro has two banks and two trust companies. One of these buildings is about five stories high. It has an elevator, and it would swallow about three buildings of the size of the Middletown Trust Company's building

From Greensboro we took another road and went to Pomona, the home of J. Van Lindley, the gentleman for whom Mr. Haggerty of Deckertown sells nursery stock. Mr. Van Lindley has a farm of 1,200 acres. His nursery covers about 400 acres. The Southern road runs through about the center of his farm I found Mr. Van Lindley and his wife as genial, whole-souled and hospitable a gentleman and lady as can be found anywhere in the South, where the people are noted for their hospitality. They have five children. The oldest son is in Cornell University. The oldest daughter entered college when she was 13 years of age and graduated when she was 17. She is now at home with her mother, and is as perfect a lady as one would wish to meet. The next two are in college, and the youngest is at home

As Sweet by Any Other Name?

Charlotte Observer.

Mr. R. L. Vernon, of Charlotte, traveling passenger agent of the Southern Railway, was in the city last night, registered at Hotel Guilford

The above paragraph is found in The Greensboro Telegram, and it serves to point a moral and adorn a tale. We object to the changing of the name of the re-built Benbow House to the Hotel Guilford. Our good friend, Howell Cobb, who will keep it all right, under no matter what name, knows better than that. The Hotel Guilford, in Greensboro, and the Hotel Iredell, in Statesville, are all together too provincial names for towns of their size and importance.

MILLIONS GIVEN AWAY.

It is certainly gratifying to the public to know of one concern in the land who are not afraid to be generous to the needy and suffering. The proprietors of Dr. King's New Discovery for consumption, coughs and colds, have given away over ten million trial bottles of this great medicine, and have the satisfaction of knowing it has absolutely cured thousands of hopeless cases. Asthma, Bronchitis, Hoarseness and all diseases of the throat, chest and lungs are surely cured by it. Call on C. E. Holton, druggist, and get a trial bottle free, Regular size 50 and $1. Every bottle guaranteed or price refunded.

Despite the price of giddy bonnet,

It isn't long before you find

A NIGHT OF TERROR.

"Awful anxiety was felt for the widow of the brave General Burnham, of Machias, Me., when the doctors said she could not live till morning" writes Mrs. S. H. Lincoln, who attended her that fearful night. "All thought she must soon die from Pneumonia, but she begged for Dr. King's New Discovery, saying it had more than once saved her life, and had cured her of Consumption. After three small doses she slept easily all night, and its further use completely cured her." This marvelous medicine is guaranteed to cure all throat, chest and lung diseases. Only 50c and $1.00. Trial bottles free at C. E. Holton's drug store.

"It doesn't do to talk overmuch," says the Manayunk Philospher. "A stiff under jaw is sometimes of more value to a man than a stiff upper lip."

"You look robust," remarked the lady of the house. "Are you equal to the task of sawing wood?" "Equal isn't the word madam," replied the pilgrim as he resumed his journey," "I' superior to it."

RHEUMATISM—CATARRAH—DISEASES CURED BY B. B. B.

It is the deep-seated, obstinate cases of catarrh and rheumatism that B. B. B. (Botanic Blood Balm) cures. It matters not what other treatments, doctors, sprays, liniments, medicated air blood purifiers, have failed to do, B. B. B. always promptly reaches the real cause and roots out and drives from the bones, joints, mucuous membrane, and entire system the specific poison in the blood that causes rheumatism and catarrh. B. B. B. is the only remedy strong enough to do this and cure and so there can never be a return to the symptoms. Don't give up hope, but try B. B. B. (Botanic Blood Balm) or 3 Bs.

For sale by druggists and Howard Gardner, in Greensboro, at $1 per large bottle, or 6 large bottles (full treatment) $5. To prove our faith in B. B. B we will send a trial bottle free to sufferers, so they may test the remedy at our expense. Address Blood Balm Co., Atlanta, Ga.

Skin Diseases

When the excretory organs fail to carry off the waste material from the system, there is an abnormal accumulation of effete matter which poisons and clogs the blood, and it becomes sour and acrid.

This poison is carried through the general circulation to all parts of the body, and upon reaching the skin surface there is a redness and eruption, and by certain peculiarities we recognize Eczema, Tetter, Acne, Salt Rheum, Psoriasis, Erysipelas and many other skin troubles, more or less severe. While the skin is the seat of irritation, the real disease is in the blood. Medicated lotions and powders may allay the itching and burning, but never cure, no matter how long and faithfully continued, and the condition is often aggravated and skin permanently injured by their use.

The disease is more than skin deep; the entire circulation is poisoned.

The many preparations of arsenic, mercury, potash, etc., not only do not cure skin diseases, but soon ruin the digestion and break down the constitution.

S. S. S., nature's own remedy, made of roots, herbs and barks, of great purifying and tonical properties, quickly and effectually cures blood and skin troubles, because it goes direct to the root of the disease and stimulates and restores normal, healthy action to the different organs, cleanses and enriches the blood, and thus relieves the system of all poisonous secretions. S. S. S. cures permanently because it leaves none of the original poison to referment in the blood and cause a fresh attack.

SSS

Healthy blood is necessary to preserve that clear, smooth skin and beautiful complexion so much desired by all. S. S. S. can be relied upon with certainty to keep the blood in perfect order. It has been curing blood and skin diseases for half a century; no other medicine can show such a record.

S. S. S. contains no poisonous minerals—is purely vegetable and harmless.

Our medical department is in charge of physicians of large experience in treating blood and skin diseases, who will take pleasure in aiding by their advice and direction all who desire it. Write fully and freely about your case; your letters are held in strictest confidence. We make no charge whatever for this service. Our book on Blood and Skin Diseases will be sent free upon application.

REMARKABLE CURE OF RHEUMATISM.

Kenna, Jackson Co., W. Va.

About three years ago my wife had an attack of rheumatism which confined her to her bed for over a month and rendered her unable to walk a step without assistance, her limbs being swollen double their normal size. Mr. S. Maddox insisted on my using Chamberlain's Pain Balm. I purchased a fifty-cent bottle and used it according to the directions and the next morning she walked to breakfast without assistance in any manner, and she has not had a single attack since.—A B. Parsons. For sale by C. E. Holton, druggist.

Poverty's Day Dream.

Richard Whiteing gained the experience for his vivid pictures of life in the east of London by living among the workers there. Many of his experiences among the submerged tenth are even more interesting than those he has told in print.

Once while talking with a grizzled old woman, who lived in the same tenement, she referred to the queen.

"Oh, 'ow I would like to be the queen!" said the ancient beldam.

"Why?" asked Mr. Whiteing.

"It isn't because of her 'orses, because if I were queen I would 'ave a donkey cart with red wheels, and it isn't because of 'er band of musicians on 'orseback, which goes a'ead of the 'orse guards, for I'd much rather 'ave a Hitalian with a 'and organ; but, just think, if she wakes up at 3 o'clock in the morning and wants a bite to eat she can touch a bell and 'ave beef and boiled cabbage right away."

A factory girl visited a collection of antique sculptures, and on her return Mr. Whiteing asked her:

"How did you like the statues?"

"None too much at first, sir, because nearly all of them were shamelessly dressed. That made me mad until I thought that they was awfully poor in them days and didn't 'ave money to buy clothes with. Then, do you know, I felt real bad because there wasn't a single lidy in the whole bloomin lot of them what 'ad a bonnet to 'er name."—Saturday Evening Post.

Animal Rights in Florida.

One thing that strikes a stranger as peculiar in this country is the attitude of the public toward the cattle and the hogs. These animals are allowed to roam about unmolested, and if you wish to raise anything that they may destroy you must fence them out. Thus all the little gardens in which vegetables are grown and which are called "trucking places" have a fence around them that is certainly "pig tight," for it is often made of ten strands of barbed wire. The wire for a few such plots is worth more than all the pigs in the state, but the hog owner demands it, and it must be done. These owners of cattle and hogs were the first settlers in the state, and they appear to have had their own way in lawmaking ever since. It is a question of the attitude. In the northern states if you own cattle you are held responsible for fencing them in. Here you must keep other people's cattle out if you wish to raise anything.—Cor. Springfield Republican.

Perfume of Russian Leather.

The original Russia leather perfume" is difficult to imitate exactly. The dominant flavor of the extract is due to the oil of birch, an essential ingredient. The substance used for this purpose is the empyreumatic oil, sometimes called birch tar, and should not be confounded with the oil of white birch, which is used very largely as a substitute for oil of wintergreen and, in fact, forms the bulk of the so called "natural oil of wintergreen" of the market.

Following is a recent formula for Peau de Russe: Extract of rose, 10 fluid ounces; extract of violet, 10 fluid ounces; extract of jasmine, 10 fluid ounces; extract of musk, one-half ounce; extract of orris, 10 fluid ounces; oil of neroli, 30 mms.; oil of bergamot, 1 dr.; oil of amber, rectified, 1 dr.; oil of birch (oleum rusci), 1 dr.; vonillin, 30 grs.; coumarin, 30 grs.; cinnamein, 1 dr.; oil of bitter orange, 20 mms. Mix.—American Druggist and Pharmaceutical Record.

A Little Problem in PER CENT.

You are building a house to cost, fitted up with common hardware and mantels say $2,000. Substitute fine builders hardware, hardwood mantels, handsome grates and tiles at an additional cost of say $100.00. Total cost $2100.00, or 5 per cent more than originally allowed.

Then compare the two and decide if your home, with the fine Hardware, Mantels etc., is not worth fully $2500.00 to sell, to rent or to live in. There is no more trying work than the weaver's. Added to the confinement, the heat and the impure air, there is often an amount of physical exertion which seems incredible. In the manufacture of plush, for example, those who cut the pile have to walk about thirty miles a day. And with every step of that thirty miles they breathe in

vitiated air filled with particles of dust, poisonous coloring matter and other substances, irritating to the throat and lungs. It is no wonder that so many mill hands have an obstinate cough or that so many of them die of "lung trouble."

It is to operatives whose work makes them peculiarly liable to lung disease that Dr. Pierce's Golden Medical Discovery comes as a priceless boon. It positively cures deep seated and obstinate coughs, bronchial affections, bleeding of the lungs, and other diseases which if neglected lead to consumption.

"When I commenced taking your medicines, eighteen months ago, my health was completely broken down," writes Mrs. Cora L. Sunderland, of Chaneyville, Calvert Co., Md. "At times I could not even walk across the room, without pains in my chest. The doctor who attended me said I had lung trouble and that I would never be well again. At last I concluded to try Dr. Pierce's medicines. I bought a bottle of 'Golden Medical Discovery,' took it, and soon commenced to feel a little better, then you directed me to take both the 'Golden Medical Discovery' and the 'Favorite Prescription,' which I did. Altogether I have taken eighteen bottles of 'Golden Medical Discovery,' twelve of the 'Favorite Prescription,' and five vials of 'Pellets.' I am now almost entirely well, and do all my work without any pain whatever, and can run with more ease than I could formerly walk."

You can consult Dr. Pierce by letter absolutely without charge. He will carefully consider your condition, and write you fully, giving you familiar, fatherly advice as well as medical direction. Your letter will be held as strictly private and sacredly confidential. Address Dr. R. V. Pierce, Buffalo, N. Y.

WHOLE CROWD BAPTIZED.

Spectators of a Baptism Get a Cold Bath.

Newbern Special to Raleigh Post.

Sunday afternoon was the occasion of a remarkable scene in this city. On account of fair week there are great numbers of visitors here and the day being a fine one, the streets were crowded.

It is customary for the colored people to perform the rites of baptism Sunday in the Neuse river where the water is shallow, near shore, somewhere on East Front street, in the best part of the city. Yesterday there were some 30 or 40 candidates and with two colored preachers dressed in white robes they went out into the river.

A vast crowd, estimated at 2,000 people, were on the shore and in the street while several hundred went out on a small bridge connecting the yacht club building with the shore.

Just as the baptising began a section of the bridge gave way and precipitated all upon it into the river. They were all white people, about twenty-five in number, and seven of them were ladies dressed in Easter costumes. One well dressed gentleman went into the water head first. Fortunately it was only waist deep at that point and many were hauled out and some taken into boats and brought ashore.

The scene, when the plunge occurred, the crash of timbers and shouts of the spectators and screams of the women was a remarkable one and will not be forgotten. It was the talk of the town. Naturally those who took the sudden bath have not furnished their names for publication and as no one was seriously injured the affair was passed off as a joke.

It amounted to $117,185, principally in salaries and clerical services. Three of the commissioners were paid $10,000 each, and Dewey and Otis remain unpaid, but their services will be rewarded equally with the other members.

The Atlanta Journal, the largest afternoon paper in the south, was sold yesterday to H. M. Atkinson, formerly of the New York Herald, who will be the publisher, and Morris Brandon and J. ROBBED THE GRAVE

A startling incident, of which Mr. John Oliver, of Philadelphia, was the subject, is narrated by him as follows; "I was in a most dreadful condition. My skin was almost yellow, eyes sunken, tongue coated, pain continually in back and sides; no appetite—gradually growing weaker day by day. Three physicians had given me up. Fortunately, a friend advised trying Electric Bitters: and to my great joy and surprise, the first bottle made a decided improvement. I continued their use for three weeks and am now a well man. I know they saved my life, and robbed the grave of another victim." No one should fail to try them. Only 50 cents per bottle at C. E. Holton's drug store.

Marriage is a serious thing, but to a great many girls it isn't half as serious as being single.

A LIFE AND DEATH FIGHT

Mr. W. A. Hines, of Manchester, Iowa, writing of his almost miraculous escape from death says: "Exposure after measles induced serious lung trouble, which ended in consumption. I had frequent hemorrhages and coughed night and day. All my doctors said I must soon die. Then I began to use Dr. King's New Discovery for Consumption, which completely cured me. I would not be without it even it cost $5 a bottle. Hundreds have used it on my recommendation and all say it never fails to cure throat, chest and lung troubles." Regular size 50 cents and $1.00. Trial bottles free at C. E. Holton's drug store.

The entire town of Wharton, Tex., and the country for eight miles around is flooded.

W. W. Mayhew, Merton, Wis., says, "I consider One Minute Cough Cure a most wonderful medicine, quick and safe." It is the only harmless remedy that gives immediate results. It cures coughs, colds, croup, bronchitis, grippe, whooping cough, pneumonia and all throat and lung diseases. It's early use prevents consumption. Children always like it and mothers endorse it. Howard Gardner.

"No family can afford to be without One Minute Cough Cure. It will stop a cough and cure a cold quicker than any other medicine," writes C. W. Williams, Sterling Run, Pa. It cures croup, bronchitis and all throat and lung troubles and prevents consumption Pleasant and harmless. Howard Gardner.

To the Editor: Letters are coming to me asking if I will allow my name to be considered by the other political conventions in connection with the office I now have.

It seems strange to me that any such enquiry should be made after my letter, which appeared on last Tuesday.

I cannot expect and do not wish, my name to be considered at all in connection with the office of Superintendent of Public Instruction, by either of the political conventions, soon to meet in the city of Raleigh.

When General Toon becomes Superintendent of Public Instruction he will have no warmer friend and no one who will do more to help him in the great work of public education than myself.

Hoping that this statement will make my position clearly understood by all, and having a feeling of charity for all and malice towards none, I am

Respectfully,

C. H. Mebane,

Superintendent Public Instruction.

DOES IT PAY TO BUY CHEAP?

A cheap remedy for coughs and colds is all right, but you want something that will relieve and cure the more severe and dangerous results of throat and lung troubles. What shall you do? Go to a warmer and more regular climate? Yes, if possible; if not possible for you, then in either case take the only remedy that has been introduced in all civilized countries with success in severe throat and lung troubles, "Boschee's German Syrup." It not only heals and stimulates the tissues to destroy the germ disease, but allays inflammation, causes easy expectoration, gives a good night's rest, and cures the patient. Try one bottle. Recommended many years by all druggists in the world. For sale by Grissom & Fordham.

The chap who carries his watch in his hip pocket is sure of being ahead of time.

FOR THE BABIES.

There is no better medicine for the babies than Chamberlain's Cough Remedy. Its pleasant taste and prompt and effectual cures make it a favorite with mothers and small children It quickly cures their coughs and colds, preventing pneumonia or other serious consequences. It also cures croup and has been used in tens of thousands of cases without a single failure so far as we have been able to learn It not only cures croup, but when given as soon as the croupy cough appears, will prevent the attack. In cases of whooping cough it liquefies the tough mucous, making it easier to expectorate, and lessens the severity and frequency of the paroxysms of coughing, thus depriving that disease of all dangerous consequences. For sale by C. E. Holton, druggist.

QUESTIONS ANSWERED.S

Yes, August Flower still has the largest sale of any medicine in the civilized world. Your mothers and grandmothers never thought of using anything else for indigestion or biliousness. Doctors were scarce, and they seldom heard of appendicitis, nervous prostration or heart failure, etc. They used August Flower to clean out the system and stop fermentation of undigested food, regulate the action of the liver, stimulate the nervous and organic action of the system, and that is all they took when feeling dull and bad with headaches and othaches. You only need a few doses of Green's August Flower, in liquid form, to make you satisfied there is nothing serious the matter with you. For sale by Grissom & Fordham.

PREVENTED A TRAGEDY.

Timely information given Mrs. George Long, of New Straitsville, O., prevented a dreadful tragedy and saved two lives. A frightful cough had kept her awake every night. She tried many remedies and doctors but steadily grew worse until urged to try Dr. King's New Discovery. One bottle cured her, and she writes this marvelous medicine also cured Mr. Long of a severe attack of pneumonia. Such cures are positive proof of the matchless merit of this grand remedy for curing all throat, chest and lung troubles. Only 50c and $1 00. Every bottle guaranteed. Trial bottles free at C. E Holton's drug store.

A man can often improve his manners by dropping some of them.

HIS LIFE WAS SAVED.

Mr. J. E. Lilly, a prominent citizen of Hannibal, Mo., lately had a wonderful deliverance from death. In telling of it he says: "I was taken with typhoid fever that ran into pneumonia. My lungs became hardened. I was so weak I couldn't even sit up in bed. Nothing helped me. I expected to soon die of consumption, when I heard of Dr. King's New Discovery. One bottle gave great relief. I continued to use it and now am well and strong. I can't say too much in its praise." This marvellous medicine is the surest and quickest cure in the world for all throat and lung trouble. Regular sizes 50 cents and $1 00. Trial bottles free at C. E. Holton's drug store; every bottle guaranteed.

THE BEST IN THE WORLD.

We believe that Chamberlains's Cough Remedy is the best in the world. A few weeks ago we suffered with a severe cold and a troublesome cough, and having read their advertisements in our own own and other papers we purchased a bottle to see how it would affect us. It cured us before the bottle was more than half used. It is the best medicine out for colds and coughs —The Herald, Andersonaville, Ind. For sale by C. E. Holton, druggist.

WINE OF CARDUI

A SURE MEDICINE.

HANDSOM, VA., Dec. 21.

I have been suffering from female weakness for four years, and have taken many medicines, but Wine of Cardui and Black-Draught have done more for me than anything else.

MRS. CAROLINE EVANS.

McELREE'S Wine of Cardui

It is a mistake to take any and every kind of medicine when you are sick. There is danger in it. Most of the so-called cures for "female weakness" do nothing more than deaden the pain temporarily, and when the effect wears away the patient is weaker and sicker than before. It is never wise to take chances. You have only one life, and that is dear and precious. If you have any pain, ache, disorder or weakness in the feminine organs, nothing will help you like Wine of Cardui. It helps do away with morning sickness during the early stages of pregnancy, and modifies the pains of childbirth; recovery is rapid and future health is assured. The Wine is purely vegetable, being made of herbs whose medicinal properties act directly upon the organs of womanhood. It is a long-tried remedy, and has many years of success behind it. It is sure. Why take a chance medicine when you can get a sure medicine?

SEVEN RUNNING SORES CURED

Johnston's Sarsaparilla

QUART BOTTLES.

THE GREAT SPRING MEDICINE.

JOHNSTON'S SARSAPARILLA as a Blood Food and Nerve Energizer, is the greatest SPRING MEDICINE ever discovered. It comes as a rich blessing from heaven to the "worn out," the run down, the overworked and debilitated. That "tired feeling," those "sinking spells," the languor and despondency which arise from badly nourished nerves, from thin, vitiated blood and an underfed body, vanish as if by a magic spell. The weariness, lassitude and nervous prostration which accompany the spring time and the heat of summer, are conquered and banished at once. For every form of neurasthenia, and all ailments of the brain and nerve, insomnia hysteria and nervousness generally, it is almost a specific. It furnishes the very elements to rebuild worn-out nerve tissues. It feeds brain, nerve centers and nerves, calming and equalizing their action; it makes rich, red, honest blood. Newness of life, new hope, new strength follow its faithful use. It makes the weak strong, and the old young again.

It was the antiquated (but now happily exploded) method in the good old times, to treat Salt Rheum, Scrofula, Cancer and other troublesome disorders arising from BLOOD TAINT with powerful alteratives, such as mercury, arsenic and other mineral agents. It was expected by this treatment that the poison could be killed while the blood was left to course through its channels holding in its circulation the specific germs of the disease. But in this way, every part of the body became more or less diseased. Nothing can be more terrible than a horribly destructive blood taint. It not only attacks virulently the different structures of the body, but many times the bones are honey-combed and destroyed. It often seeks out the nerves and spinal cord, and again it will bring decay and death to some vital organ, as the kidneys, liver or stomach. There is only one scientific method for the cure of blood taint. That is, PURIFICATION! Every particle of the blood must be removed through the excretory channels, the lungs, kidneys, bowels, liver and skin. "First pure, then peaceable." The great restorative, reconstructive and vitalizer of the blood, JOHNSTON'S SARSAPARILLA, not only radically and exhaustively removes the taint, but also removes all mercury, calomel and other minerals, and fills the veins and arteries with the ruby, glowing current of vitality. "The blood is SARSAPARILLA, is universally regarded as the greatest Blood Purifier ever discovered. This fact is now established beyond question or cavil.

GREENSBORO'S FINE TALENT

THE MUSICAL HIT OF THE SEASON OCCURRED LAST NIGHT.

The Euterpe Club Under Director Clarence Brown Gave a Fine Program at West Market Church.

A large audience assembled at the West Market Street church last evening to enjoy the concert given under the auspices of the Euterpe club. It proved to be the musical success of the season, and all praise is due the noble band of musical enthusiasts for their artistic rendition under the leadership of Prof. Clarence Brown.

Part first consisted of four numbers—The Palms, by the Home Orchestral Club, a vocal solo, sung by Mrs. D. L. Hagan in her own pure toned style with a violin obligato by Miss Elsie Weatherly. The flute solo by Mr. Edward Wills was also much enjoyed, and then while the orchestral club played the Priest's March, by Mendelssohn, a very satisfactory collection was taken up, which is to divided between the club and the organ fund of the church.

Part second was the main feature of the program. The selection was Dudley Buck's beautiful Easter Cantata, "Christ the Victor," being the Bible story of Christ's death and glorious resurrection and givining fine opportunities for effective solo and chorus work. The soloists were selected with fine judgment and responded to their parts with fine effect.

Miss Lola Carraway, in her sympathetic rendering of the soprano solos added laurels to her already enviable reputation; Miss Maude Hunter, as the alto soloist, surprised all by the depth of her notes and the volume of her vofce.

But the genuine surprise to all was found in the rendition of the baritone and tenor solos. In the opening of the cantata a small, frail young man arose and stood waiting for the proper sign of the musical director to begin In those moments of waiting, all expectancy was on tip-toe, and then when Mr. Wesley White did begin a deep sense of satisfaction swept over the audience. Mr. White has a finely trained voice of remarkable depth and strength and what is even more important, it is full of that magnetic feeling which thrills the hearer.

In the tenor solo parts Mr. Richard Crawford sustained his well deserved reputation His voice is exceedingly sympathetic and round.

The chorus work was truly fine. In this Prof. Brown as the trainer and director exhibited the possibilites of artistic direction and the many voices responded as one.

The church was beautiful in its Easter decorations of calla lilies, palms and other rare plants.

Come out to the speaking tonight. All invited.

William Lindsay, a hack driver, whom Col. Bennett of Anson, would describe as "fashioned in ebony," last night took a party of kindred spirits out in the country to an Easter party. On the way the hack broke down and one of the party had to walk, whereupon one of damsels became wroth, and applied fiery epithets to the conductor of the festive crowd. Her brother also got mad, swished his razor through the air and nearly cut one side of the face of the unlucky driver off, and slashed his overcoat beside.

May Be a Raphael.

An alleged new Raphael picture has been discovered at the exhibition of sacred art at Como. In one of the galleries of the exhibition there is a picture representing "The Massacre of the Innocents," belonging to Dr. Biondi of Pavia. A number of artists, attracted by the beauty of the painting, formed a committee to examine it attentively. The surface of the canvas was carefully scratched in the spot above the varnish was found the signature Raph. VRBI and the year MDX. The picture would, therefore, belong to the beginning of the last decade of Raphael's life, he having died in 1520. It is believed that the picture was bought toward the middle of the seventeenth century at a sale of a cardinal's possessions.

A Rational Argument.

"You once said you would die for me, Jonas, and now you refuse to cut the grass."

"That's perfectly logical, Minerva. If I died for you, I'd be done with it, but if I mow the grass once you'll make me do it every two weeks."—Chicago Record.

McKinley's Fondness For Almonds.

When the president was a member of the lower house of congress, he was noted for carrying a pocketful of nuts, mostly soft sheiled almonds, which he munched when deliberating. He keeps up the habit in the White House, and it is said that his walks in the mansion are marked by the hulls of the nuts, which he scatters as he goes.

A Prospective Policeman.

A big, broad shouldered man, standing about 6 feet 5 inches in height, and whose speech indicated that he came from the Emerald Isle, was one of the passengers on a steamship recently examined by Deputy Commissioner of Immigration Hughes.

"What is your name?" asked the deputy commissioner as the Celt passed before him.

"Hugh J. Donovan, sir," was the reply.

"What is your nationality?"

"I am a Protestant, sir."

"Where were you born?"

"Ireland, sir."

"What is your occupation?" was the next query of the commissioner.

Donovan straightened himself up to his full height and remarked, "I belonged to the constabulary in Killybegs."

"Where are you bound for?"

"New York," came the reply.

"What are you going there for?"

"Shure, I am going there to join the police force and get big pay for the same."

"You can pass out," said Commissioner Hughes, and the big, good natured Celt picked up his bundles and walked out the door of the immigrant station looking the picture of contentment.—Philadelphia Times.

Klondike Gold.

Speaking of the Klondike, The Engineering and Mining Journal says: "When the ten millions or so of dollars come down from there next year, don't get excited, but remember they are the sole product of a year's labor of from 6,000 to 8,000 men, who cannot afford to work gravel that yields less than one ounce of gold per man per day. If those who think of going to the Yukon country to get rich will work as hard and undergo as many privations here at home in the pursuit of money, they will, we have no doubt, be richer at the end of five years here than will be the average of those who go to Klondike. The Klondike is not nearly as rich as California was in 1850 nor as many districts in California and some other states are today."

Artificial Silk.

The silkworm is threatened with the loss of its occupation. The insect, it seems, just dodderingly mixes mulberry leaf with a gummy substance and then spins its thread. A French inventor claims to have discovered that by reducing mulberry leaves to pulp by machinery and adding a gummy substance silk may be made in half the time and of more brilliant luster than that produced by the silkworm.

His Past Career.

Julius Kahn, the new congressman from San Francisco, was an actor several years before he studied law, practiced at the bar and got into politics. He has faced the gallery gods in every city of the United States in his time. But he admits that he never encountered quite such a knockout as occurred to him at a Washington dinner party the other night.

The toastmaster had introduced Mr. Kahn to an audience of between 100 and 200 diners with some remarks about congress being a place where there was a good deal of acting and the suggestion that Mr. Kahn ought to feel entirely at home. The actor-congressman rose to reply and led off with the remark that he supposed the toastmaster had reference to the fact that he had passed some years of his life upon the stage.

The words were no sooner out than in a perfectly serious tone somebody at the remotest table inquired, "Whom did you drive for?"—St. Louis Globe-Democrat.

Auction Sale of Small Farms

Having had so many inquiries for small tracts of land in and near the city suitable for truck farms and grass lots, we have decided to have a closing out sale of the remainder of the Vanbokelin land on Thursday afternoon, April 19th., at 3 o'clock.

We will sell these tracts in sizes ranging from three to twenty acres, to the highest bidder on the following terms: One-third cash, one-third in six months and one-third in twelve months, deferred payments bearing interest at the rate of six per cent per annum.

This is sooner than we expected to have a sale, but prospective buyers want land in time to plant crops this spring. There has never been a sale of this kind here and we are going to try to meet the wants of a large class of buyers.

We have a number of choice lots left and if any one wants one on the day of the sale we can put it up, but we shall make a special effort to dispose of a large number of small farms. We hope to see a large crowd on the ground at the hour of sale. We will detain you only long enough to give you an opportunity to make a purchase in this growing city, which you will never regret.

Hacks will be on hand to take you to the sale free of charge

Next to the Consumer

is where we stand in the lumber business. At the kicking post, as it were, in regard to prices.

First comes the owner of the timber. He just woke up to the value of it and wants double last year's prices. Then the sawmill man. He has not been making a fortune and thinks now he should share a little in the general prosperity

They say to us: "We must have so much for our trees and work." After a while it is "up to you." Don't kick. You don't suppose we have nerve enough to put up prices unless they had first been put up on us. No, indeed. But prices are NOT high. They have been to low and are just now getting reasonable. Your children will be glad to build at double the price it now costs you. It is a trite, but true saying, if you want to build, "Now is the time."

And ours is the place to get the stuff.
